Provide methodology and assumptions used to estimate ADA, enrollment, revenues, expenditures, reserves and fund balance, and multiyear commitments (including cost-of-living adjustments).

Deviations from the standards must be explained and may affect the interim certification.

CRITERIA AND STANDARDS

1. CRITERION: Average Daily Attendance

STANDARD: Funded average daily attendance (ADA) for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since first interim projections.

District's ADA Standard Percentage Range: -2.0% to +2.0%

1A. Calculating the District's ADA Variances

DATA ENTRY: First Interim data that exist will be extracted into the first column, otherwise, enter data for all fiscal years. Second Interim Projected Year Totals data that exist for the current year will be extracted; otherwise, enter data for all fiscal years. Enter district regular ADA and charter school ADA corresponding to financial data reported in the General Fund, only, for all fiscal years.

Estimated Funded ADA

Fiscal Year	First Interim Projected Year Totals (Form 01CSI, Item 1A)	Second Interim Projected Year Totals (Form AI, Lines A4 and C4)	Percent Change	Status

1B. Comparison of District ADA to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - The projected change since first interim projections for funded ADA exceeds two percent in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard, a description of the methods and assumptions used in projecting funded ADA, and what changes will be made to improve the accuracy of projections in this area.

Explanation:
(required if NOT met)

At second interim, district opted to use the 3year average ADA

2. CRITERION: Enrollment

STANDARD: Projected enrollment for any of the current fiscal year or two subsequent fiscal years has not changed by more than two percent since first interim projections.

District's Enrollment Standard Percentage Range: -2.0% to +2.0%

2A. Calculating the District's Enrollment Variances

DATA ENTRY: First Interim data that exist will be extracted; otherwise, enter data into the first column for all fiscal years. Enter data in the second column for all fiscal years. Enter district regular enrollment and charter school enrollment corresponding to financial data reported in the General Fund, only, for all fiscal years.

2. If Yes, identify each fund, by name and number, that is projected to have a negative ending fund balance for the current fiscal year. Provide reasons for the negative balance(s) and explain the plan for how and when the problem(s) will be corrected.

ADDITIONAL FISCAL INDICATORS

The following fiscal indicators are designed to provide additional data for reviewing agencies. A "Yes" answer to any single indicator does not necessarily suggest a cause for concern, but may alert the reviewing agency to the need for additional review.

DATA ENTRY: Click the appropriate Yes or No button for Items A2 through A9; Item A1 is automatically completed based on data from Criterion 9.

A1. Do cash flow projections show that the district will end the current fiscal year with a negative cash balance in the general fund? (Data from Criterion 9B-1, Cash Balance, are used to determine Yes or No)

A2. Is the system of personnel position control independent from the payroll system?

A3. Is enrollment decreasing in both the prior and current fiscal years?

A4. Are new charter schools operating in district boundaries that impact the district's enrollment, either in the prior or current fiscal year?

A5. Has the district entered into a bargaining agreement where any of the current or subsequent fiscal years of the agreement would result in salary increases that are expected to exceed the projected state funded cost-of-living adjustment?

A6. Does the district provide uncapped (100% employer paid) health benefits for current or retired employees?

A7. Is the district's financial system independent of the county office system?

A8. Does the district have any reports that indicate fiscal distress pursuant to Education Code Section 42127.6(a)? (If Yes, provide copies to the county office of education.)

A9. Have there been personnel changes in the superintendent or chief business official positions within the last 12 months?

When providing comments for additional fiscal indicators, please include the item number applicable to each comment.

Management's Discussion and Analysis

PLEASANT VIEW SCHOOL DISTRICT
Management's Discussion and Analysis (MD&A)
June 30, 2021

INTRODUCTION

Our discussion and analysis of Pleasant View School District (District) financial performance provides an overview of the District's financial activities for the year ended June 30, 2021. It should be read in conjunction with the District's financial statements, which follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued June 1999; and GASB Statement No. 37, *Basic Financial Statement – and Management Discussion and Analysis – for State and Local Governments: Omnibus*, an amendment to GASB Statement No. 21 and No. 34, issued in June 2001.

FINANCIAL HIGHLIGHTS

- ❑ Total net position was \$3,704,308 at June 30, 2021. This was an increase of \$122,875 (3.62%) from the prior year.
- ❑ Overall revenues were \$8,634,242, which was greater than expenses of \$8,511,367 by \$122,875.
- ❑ Net Pension Liability has increased by \$669,020.
- ❑ Total OPEB Liability has increased by \$152,376.

OVERVIEW OF FINANCIAL STATEMENTS

This annual report consists of three parts – Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- ❑ **Government-wide financial statements**, which comprise the first two statements, provide both short-term and long-term information about the entity's overall financial position.
- ❑ **Fund financial statements** focus on reporting the individual parts of the District operations in more detail. The fund financial statements comprise the remaining statements.
 - **Governmental funds** statements tell how general government services were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required supplementary information that further explains and supports the financial statements.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position - assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in enrollment, changes in the property tax base, changes in program funding by the Federal and State governments, and condition of facilities.

The government-wide financial statements of the District include governmental activities. Most of the District's basic services are included here, such as regular education, food service, maintenance and general administration. Local Control Funding Formula (LCFF) and Federal and State grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds - not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular programs. Some funds are required to be established by State law and by bond covenants. The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that the District is meeting legal responsibilities for using certain revenues. The District has one kind of fund:

- Governmental funds - Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the government funds statements that explains the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$3,996,357, an increase of \$95,658 from last year's ending fund balance of \$3,900,699. The increase in fund balance is mainly due to an increase in revenue.

General Fund Budgetary Highlights

Over the course of the year, the District revises its annual budget to reflect unexpected changes in revenues and expenditures. The final amendment to the budget was approved June 30, 2021. A schedule of the District's original and final budget amounts compared with actual revenues and expenses is provided in the required supplemental section of the audited financial report.

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pleasant View School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Pleasant View School District, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1 to the financial statements, Pleasant View School District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities* for the year ended June 30, 2021. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, schedule of the District's pension contributions and schedule of changes in the total OPEB liability and related ratios on pages 1-7 and 41-44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pleasant View School District's basic financial statements. The schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying other required supplementary schedules as other supplementary information as required by the State's audit guide, *2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards and other required supplementary schedules as supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and other required supplementary schedules as supplementary information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The combining statements presented as other supplementary information on pages 45 through 50 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2022, on our consideration of Pleasant View School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Pleasant View School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pleasant View School District's internal control over financial reporting and compliance.

PLEASANT VIEW SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies

Pleasant View School District (District) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's "California School Accounting Manual". The accounting policies of the District conform to the accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

Financial Reporting Entity

A reporting entity is comprised of the primary government and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. For Pleasant View School District, this includes general operations, food service and student related activities of the District.

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It is used to account for all financial resources of the District except those required to be accounted for in another fund.

The Non-Treasury COP/Trustee Building Fund #2 is used to account for the acquisition of major governmental capital facilities and buildings from the proceeds of bond sales and certificates of participation.

Non-Major Governmental Funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The following special revenue funds are utilized by the District:

The Student Activity Fund is used to account separately for local revenues that are restricted for student body activity and is used only for those expenditures as necessary for the operation of the schools' student bodies.

The Cafeteria Fund is used to account separately for federal, state and local resources to operate the food service program and is to be used only for those expenditures as necessary for the operation of the District's food service program.

YEAR ENDED JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies (continued)

Basis of Presentation (continued)

Capital Projects Funds are used to account for the acquisition and/or construction of all major governmental general fixed assets. The following capital projects funds are utilized by the District:

The Building Fund is used to account for the acquisition of major governmental capital facilities and buildings from the proceeds of bond sales and certificates of participation.

The Capital Facilities Fund (Developer Fees) is used to account for resources received from developer impact fees assessed under provisions of the California Environmental Quality Act (CEQA).

The County School Facilities Fund – Modernization is used to receive apportionments from the State School Facilities Fund authorized by the State Allocation Board for the modernization of the District.

Measurement Focus, Basis of Accounting

Government-wide Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 45 or 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources. Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

NOTE 1 - Summary of Significant Accounting Policies (continued)

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and district superintendent during the year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was used as a management control device during the year for all budgeted funds. The District employs budget control by minor object and function and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object code. All appropriations lapse at year end.

Deposits and Investments

Cash balances held in banks are fully insured or collateralized.

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The County pools these funds with those of other districts in the county and invests the cash. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). Interest earned is deposited quarterly into the participating funds. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Information regarding the amount of dollars invested in derivatives with the Tulare County Treasury was not available for the year ended June 30, 2021.

Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued at average cost and consist of expendable supplies held for consumption. Inventories of the General Fund are immaterial and have been omitted from these statements.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure when incurred.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Land Improvements	20
Buildings	25-50
Equipment	5-15

PLEASANT VIEW SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2021

NOTE 1 - Summary of Significant Accounting Policies (continued)

Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities, when applicable. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position, when applicable.

Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Unearned Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent cash received on specific projects and programs exceeds qualified expenditures.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The entire compensated absence liability is reported on the government-wide statement of net position.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) Schools Pool Cost-Sharing Multiple-Employer Plan and California Public Employees' Retirement System (CalPERS) Schools Pool Cost-Sharing Multiple-Employer Plan and additions to/deductions from the CalSTRS and CalPERS Plans' fiduciary net positions have been determined on the same basis as they are reported by the CalSTRS Financial Office and CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

NOTE 1 - Summary of Significant Accounting Policies (continued)

Fund Balances – Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as stores inventories) or legally required to remain intact.

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board, the District's highest level of decision making authority. Formal board action must be taken on or before June 30th of each fiscal year. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. The committed amount subject to the constraint may be determined after June 30th. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted fund balances in that the constraints on their use do not come from outside parties, constitutional provisions or enabling legislation.

Assigned Fund Balance – represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the General Fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

Spending Order Policy

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balances are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Minimum Fund Balance Policy

In fiscal year 2011, the District adopted a minimum fund balance policy for the General Fund. The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredictable expenditures. Therefore, the District will maintain an unassigned Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than prescribed for fiscal solvency review purposes pursuant to Education Code Section 33127. In the event that the balance drops below the established minimum level, the District's governing board will develop a plan to replenish the fund balance to the established minimum level within two years.

Net Position

Net position represents assets plus deferred outflows of resources, less liabilities, less deferred inflows of resources. Net position, net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1. Unsecured property taxes are payable in one installment on or before August 31. The County of Tulare bills and collects the taxes for the District.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

New Accounting Principles

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. A fiduciary component unit, when reported in the fiduciary fund financial statements of a primary government, should combine its information with its component units that are fiduciary component units and aggregate that combined information with the primary government's fiduciary funds. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval, or condition is required to be taken or met by the beneficiary to release the assets. The provisions of this Statement have been implemented in the financial statements for the period ended June 30, 2021. The statements contained herein reflect the change in financial reporting and presentation.

The following is a summary of the upcoming GASB Statements that may have an impact on the District's future reporting:

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment. Any contract that meets this definition should be accounted for under the leases guidance, unless specifically excluded in this Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

In April 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. The objective of this Statement is to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Investments Authorized by the District's Investment Policy

Education Code Section 41015 authorizes the investment of surplus moneys, not required for the immediate necessities of the District, in any of the investments specified in Section 16430 or 53601 of the Government Code. Additionally, a variety of operational bank accounts are authorized, including but not limited to: Scholarship Accounts, Clearing Accounts and Revolving Cash Accounts. The District's investment policy does not contain any specific provisions intended to limit the District's exposure to interest rate risk, credit risk and concentration of credit risk. The District held no investments at June 30, 2021.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District held no investments at June 30, 2021.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District held no investments at June 30, 2021.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code, which is investments in any one issuer (other than U.S. Treasury Securities, mutual funds and external investment pools) that represent 5% or more of total District investments. The District held no investments at June 30, 2021.

NOTE 3 - Cash and Investments (continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure governmental agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

NOTE 10 - Participation In Public Entity Risk Pools and Joint Powers Authorities (JPAs)

The Pleasant View School District participates in the following public entity risk pools under joint powers agreements; the Central Tulare County School Districts Liability/Property Joint Powers Authority (C.T.C.S.J.P.A.), Northern California Regional Liability Excess Fund (NorCal ReLiEF), School Employees Trust-Tulare County (SET-TC), Self-Insured Schools of California III (S.I.S.C. III)-SET-TC Pool, and Tulare County Schools Insurance Group (T.C.S.I.G.). The relationship between the District and the JPAs is such that none of the JPAs is a component unit of the District for financial reporting purposes.

The JPAs were established as agencies under the provisions of California Government Code, Title I, Division 7, Chapter 5, Article 1, Section 6500, et. seq. The purpose of each JPA is to provide self-insurance programs as follows:

C.T.C.S.J.P.A. provides liability and property insurance for claims against the participating public educational agency JPA members. These claims are paid through the JPA loss fund.

NorCal ReLiEF provides general liability insurance for claims against the participating educational agency JPA members.

SET-TC provides coverage for medical, dental, vision and prescription claims through its participation in the S.I.S.C. III-SET-TC Pool.

S.I.S.C. III-SET-TC Pool provides the services necessary and appropriate for the establishment, operation and maintenance of a medical Self-Insurance Fund that provides for payment of medical, dental, vision and prescription claims of the member public educational agency employees and their covered dependents and to minimize the total cost of annual medical insurance of their respective member organizations.

T.C.S.I.G. is an insurance purchasing pool for workers' compensation insurance.

Membership in the JPAs consists of various public educational agencies.

The JPAs are governed by boards consisting of representatives from the member public educational agencies and related associations. The boards control the operations of each JPA, including selection of management and approval of operating budgets, independent of any influence by member public educational agencies beyond their representation on the board. Each member public educational agency pays a premium based on student population, or number of covered individuals. Surpluses remain in each fund or JPA, while deficits are covered by assessments on the member districts in proportion to their participation in each JPA.

During the last three fiscal (claims) years none of the above programs have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from coverage in the prior year.

NOTE 11 - Pension Plans

Plan Descriptions

Qualified employees are covered under multiple-employer, cost-sharing defined benefit pension plans administered by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement Plan (STRP), a plan administered by the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the Public Employees' Retirement Fund, School Employer Pool (PERF B) administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and Local Government resolution. Support by the State for the CalSTRS plan is such that the plan has a special funding situation as defined by GASB Statement No. 68. The benefit terms of the CalSTRS and CalPERS plans may be amended through legislation and Public Employers' Retirement Law, respectively. CalSTRS and CalPERS issue publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on their respective websites, <http://www.calstrs.com/member-publications> and <http://www.calpers.ca.gov/page/forms-publications>.

Benefits Provided

CalSTRS - STRP

CalSTRS - STRP provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the plan provides benefits to members upon disability and to their survivors or beneficiaries upon the death of eligible members. STRP has two benefit formulas. CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. An early retirement option is available at age 55. The normal retirement benefit is equal to 2% of final compensation for each year of credited service.

CalPERS - PERF B

CalPERS - PERF B provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Monthly benefits are based on three factors: Service credit, benefit factor and final compensation. Service credit is based on years of credited service, equal to one year of full-time employment. The benefit factor which is a percentage of pay to which the member is entitled for each year of service, is determined by their age at retirement and the retirement formula based on their membership date with each employer. CalPERS - PERF B has two school retirement formulas. CalPERS - PERF B 2% at 55 members are eligible for normal retirement at age 55, with a minimum of five years of credited service. Early retirement options are available at age 50. CalPERS - PERF B 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. An early retirement option is available at age 52. The normal retirement benefit is equal to 2% of final compensation for each year of credited service.

NOTE 11 - Pension Plans (continued)

Contributions

CalSTRS - STRP

Required member, District and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Employers and members are required to contribute monthly to the system a percentage of the creditable compensation. Rates are defined in Section 22950.5 through the measurement period ending June 30, 2021. Beginning in the fiscal year 2021-22 and for each fiscal year thereafter, the CalSTRS Board has the authority to increase or decrease percentages paid specifically to reflect the contribution required to eliminate by June 30, 2046, the remaining unfunded actuarial obligation with respect to service credited to members before July 1, 2014, as determined by the Board based upon a recommendation from its actuary. The contribution rates for each plan for the year ended June 30, 2021, are presented on the previous page and the contributions to the pension plan from the District were \$359,930.

CalPERS - PERF B

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The CalPERS' Board retains the authority to amend contribution rates. The total plan contributions are determined through CalPERS' periodic actuarial valuation process or by state statute. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contribution rates are expressed as a percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2021, are presented on the previous page and the contributions to the pension plan from the District were \$232,864.

On Behalf Payments

Consistent with Section 22955.1 of the California Education Code, the State of California makes contributions to CalSTRS on behalf of employees working for the District. The State contributed the required 10.328% of salaries creditable to CalSTRS from two fiscal years prior. The amount contributed by the State on behalf of the District was \$238,194 and is reported as both revenue and an expenditure in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance. In the government-wide Statement of Activities, revenue and expense is recognized for the State's on behalf contributions on an accrual basis of \$281,075. These on behalf payments meet the criteria of a special funding situation.

California Senate Bill (SB) 90, signed into law in June 2019, appropriated additional contributions on behalf of school employers. Among other provisions, SB 90 appropriated \$2.246 billion to CalSTRS and \$904 million to CalPERS in 2018-19 to be allocated to future years to reduce the employer contribution rate. Additionally, SB 90 appropriated an amount of \$2.9 billion from Proposition 2 debt payment funding for CalSTRS, to be appropriated over the fiscal years 2019-20 through 2022-23. Additionally, passage of California Assembly Bill (AB) 84 revised certain provisions enacted by SB 90. AB 84 did not provide new supplemental contributions, rather, it repurposed SB 90 contributions that was originally intended to reduce employers' long-term liabilities, by further supplanting employer contributions through fiscal year 2021-22.

Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported net pension liabilities for its proportionate share of the net pension liabilities that reflected a reduction for state support provided to the District. NOTE 11 - Pension Plans (continued)

Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2020, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liabilities was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating school districts and the State, actuarially determined. A comparison of the District's proportionate share at measurement date of June 30, 2020 to its proportionate share at measurement date June 30, 2019, is as follows:

	<u>CalSTRS</u>	<u>CalPERS</u>
Proportionate share at June 30, 2020	0.00438%	0.00698%
Proportionate share at June 30, 2019	0.00429%	0.00632%
Change - increase (decrease)	<u>0.00009%</u>	<u>0.00066%</u>

For the year ended June 30, 2021, the District recognized pension expense of \$982,101 and revenue of \$238,194 for support provided by the State. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 106,157	\$ 112,294
Changes of assumptions	422,048	-
Net difference between projected and actual earnings on pension plan investments	145,454	-

District contributions subsequent to the measurement date	592,794	-
Totals	<u>\$ 1,372,543</u>	<u>\$ 136,513</u>

\$592,794 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. The other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense, as follows:

Mortality Assumptions

CalSTRS' mortality assumptions are based on the July 1, 2015 through June 30, 2018 experience study. CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries. CalPERS uses mortality tables developed based on CalPERS specific data for all funds. The mortality table includes 15 years of mortality improvements using the Society of Actuaries 90 percent of scale MP 2016.

Long-Term Expected Rate of Return

CalSTRS and CalPERS use the long-term expected rate of return on pension plan investments. It was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalSTRS and CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plans. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years.

CalSTRS best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class are summarized in the table on the following page.

CalPERS utilized historical returns of all the Plan's asset classes to determine the expected compounded (geometric) returns over the short-term (first 10 years) and the long-term (11+ years) using the building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Discount Rate

CalSTRS' discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increase. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments and administrative expenses occur midyear. Based on those assumptions, the CalSTRS-STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

CalPERS' discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Summary of Changes of Benefits or Assumptions

The CalPERS board of Administration adopted a new amortization policy effective with the June 30, 2019, actuarial valuation. The new policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount.

There were no changes to benefit terms or plan provisions that applied to members of CalSTRS or CalPERS.

NOTE 12 - Postemployment Benefits Other Than Pension Benefits (OPEB)

Plan Description

The District provides a self-funded, single employer, defined benefit healthcare plan administered by Pleasant View School District to provide medical, dental and vision plans for all eligible active and retired District employees. The program is intended to offer a comprehensive coverage of most medical with prescription drugs, dental and vision benefits. Authority to establish and amend the benefit terms of the plan may be amended by the District. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided

As established by board policy, the plan covers all employees who retire from the District on or after attaining age 58 with at least 15 years of service. Benefits are paid until they attain the age of 65. Classified employees, including classified management, hired on or after July 1, 2008 are not eligible for District-paid benefits. The District is a member in a joint powers authority (JPA) the School Employees Trust-Tulare County (SET-TC), as described in Note 10 to provide health coverage.

Employees Covered by Benefit Terms

At June 30, 2019, plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefit payments	4
Inactive employees entitled to but not yet receiving benefit payments	-
Participating active employees	28
Total number of participants	<u>32</u>

Contributions

The District funds the benefits on a pay-as-you-go basis. The District cap on health benefits is \$17,063 per year. The cap is higher than the premium cost and therefore does not reduce the District's benefit cost. During the fiscal year ended June 30, 2021, the District paid \$71,093 for retiree insurance premiums.

**Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With Government Auditing Standards**

Independent Auditors' Report

Board of Trustees
Pleasant View School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pleasant View School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Pleasant View School District's basic financial statements, and have issued our report thereon dated February 16, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Pleasant View School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pleasant View School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Pleasant View School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pleasant View School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Pleasant View School District in a separate letter dated February 16, 2022.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Internal Control Over Compliance

Management of Pleasant View School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Pleasant View School District's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Pleasant View School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

STATE COMPLIANCE – TEACHER SALARIES

Criteria

Education Code Section 41372 requires that payment of classroom teachers' salaries and benefits meet or exceed 60% (for elementary districts) of total expenditures of the District.

Condition

The District only spent 52.42% of their current expense of education (\$6,538,840) on classroom teachers' salaries and benefits (\$3,427,709), which is below the required level.

Questioned Costs

Not Applicable

Proper Perspective

The finding is systematic to the entire District.

Effect

The deficiency amount was determined to be \$495,644; therefore, the District is out of compliance with the Education Code Section 41372. The District has filed an application for exemption from required expenditures for classroom teacher salaries with the Tulare County Office of Education.

Cause

Teachers' salaries and benefits were not increased to meet this requirement because the teachers' salaries and benefits are already in excess of those paid by other comparable school districts.

Recommendation

This is a repeat finding from the prior year. We recommend the District continue to monitor the comparability of salaries between comparable school districts and apply for the waiver when needed.

Corrective Action Plan

The District will continue to monitor the comparability of salaries between comparable school districts and apply for the waiver when needed.

Letter to Management

Board of Trustees
Pleasant View School District

We have completed our audit of Pleasant View School District for the year ended June 30, 2021. The following items came to our attention which we are providing for your consideration:

COPs Activity Journal Entries

The District refinanced 2015 COPs and made journal entries to record the issuance of the new COPs; however, the District did not record the payoff of the old COPs. As a result, the Cash with a Fiscal Agent/Trustee was overstated. We recommend as part of year end closing procedures, the District reconcile the trust account to the general ledger.

GASB Statement No. 87, Leases Implementation

The District will be required to implement GASB Statement No. 87, *Leases* for the fiscal year ending June 30, 2022. We recommend the District become familiar with the new standard and start gathering and evaluating current leases and contracts in preparation for proper reporting in their June 30, 2022 financial statements.

Prior Year Issue

Excess of Expenditures Over Appropriations: Actual expenditures exceeded budgeted amounts in a major object code for the year ended June 30, 2020 in the General Fund. Proper internal controls dictate maintaining control over the budgeting process. We recommended the District review budgets more carefully and revise budgets on a regular basis or the board should approve the year end budget transfer resolution to allow the County Office of Education to adjust the budget when necessary. Our recommendation has been implemented.

We would like to thank management and all of the office personnel for the excellent cooperation we received during our audit. We look forward to working with you again in 2022 and beyond.

Very truly yours,

(1)

Make plans now to join us in June at our in-person national conference!

During our time together, we will explore the following theme: *The Most Important Moment: Reclaiming the Time to Teach & Learn*. We hope that the dialogue around this topic will help educators better cope with the "new normal" that Covid-19 has created in our lives.

All conference sessions will be held on the campus of our nationally accredited [Paideia School for Creative Thinking](#) ([/paideia-schools/paideia-nationally-accredited-and-certified-schools](#)), Merrol Hyde Magnet School, in Hendersonville, Tennessee. We also plan to have a welcome reception and awards ceremony. We intend to recognize all our Paideia partner schools at that event.

Although our goal is to hold our conference in person, we are also offering a virtual streaming option for those unable to travel. If pandemic conditions should warrant, we will switch to a virtual streaming model for all participants. The fee for either option is \$500; to register, click the button below.

(<https://forms.gle/7j3BmzP3dPtzhYXG9>)NEW THIS YEAR: In a revamped conference format, we are also offering one-day add-on courses on June 22. Please also see our [Professional Development](#) ([/professional-development/index](#)) page to sign up for either of the following: Introduction to Paideia Seminar or Advanced Paideia Seminar Facilitation. NOTE: If you are the Paideia Coordinator for your

school and will be signing up for either of these courses, please [email our assistant director, Jeremy Spielman](mailto:jeremy@paideia.org?subject=June%202022%20Training), (<mailto:jeremy@paideia.org?subject=June%202022%20Training>) as we would like to convene a short meeting of coordinators on the June 22 training day.

LODGING OPTIONS: Due to the continued uncertainty caused by the pandemic, we do not plan to reserve hotel room blocks for our participants, but [see this page \(/experience-paideia/national-conference-lodging\)](/experience-paideia/national-conference-lodging) for a list of suggested hotels. Metro Nashville is about 30 minutes from Merrol Hyde if you want to stay downtown and soak in the Music City atmosphere!

Please visit this page again soon as we add more details about the conference.

**Have
an
idea?**

We invite you to apply to present at our 2022 conference. If you are interested, click here to fill out the application form.

Section A: Summary of Operations

Summary

SitelogIQ completed the installation of a combined 157.50 kW DC Solar system located on 2 site(s) within the Pleasant View USD comprised of Solar World modules, ABB inverters, and a ABB communication system communicating through a cellular connection. The final closeout construction date was 6/23/2016. The chart below shows the Modeled Vs. Expected energy for the year of 2021.

Measured Vs. Expected Energy Generation

Section B: Monthly and cumulative energy production with performance

Overall System Performance

The system performance was above expectations for the year 2021. Overall, the average system performance in 2021 was 105% of expected energy output with a total solar generation of 230,119 kWh. The following table displays the energy production compared to expectations for the calendar year 2021. Contracted system performance is evaluated by measured production / expected production.

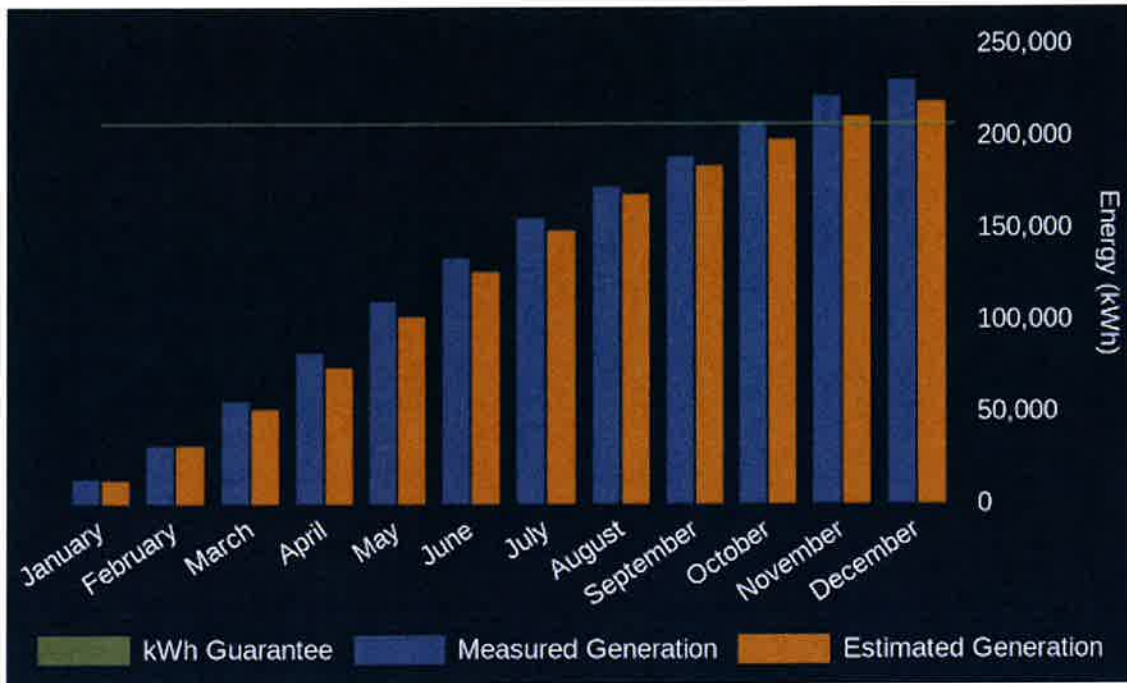

Table 1	
Expected Generation	217,404 kWh
Actual Measured Generation	230,119 kWh
System Performance	105%
Performance Guarantee	95%
Energy Guarantee	206,534 kWh
Energy Surplus or (Deficit)	23,585 kWh
Price Guarantee	\$0.1971 /kWh
Guarantee Deficit (Deficit below 95%)	0 kWh
Applicable Carryover Credit	3,572 kWh
Payment Due	\$0.00
2021 Carryover Balance	1,953 kWh
Overproduction Credit*	5,524 kWh

Please note that energy corrections for interconnected lighting, communication outages, and other occurrences affecting total production outside the Operator's control have not been included.

**Overproduction credit is calculated as any measured generation exceeding 105% of expected generation. This credit will be carried forward to future years and applied accordingly to any future guarantee deficits if they occur.*

2021 Measured Vs. Modeled Cumulative Energy Generation

The Cumulative Generation Chart shows the monthly increase in generated energy throughout the year.

Weather Data

The solar insolation (Wh/m^2) and Module Temperature ($^{\circ}\text{C}$) data are recorded at the site and used to calculate the expected energy output (kWh) using the temperature-derate model. This analysis allows us to create a performance ratio that serves as the baseline measurement for administering O&M services. Although applicable in most cases, certain conditions such as temperature, wind, sunlight spectrum, and weather station equipment calibration may affect the accuracy of the analysis. SitemogIQ tests irradiance (an instantaneous measurement of Solar Power) and panel temperature during the annual inspection and verifies that the local reference cell is within 10% of the monitoring system measurements. Therefore, it is reasonable to assume that yearly testing and verification accurately predict the weather-adjusted performance.

Performance Guarantee Calculation

The systems have performed better than the guarantee, as provided in Table 1. Therefore, no guarantee payment is due.

Environmental Data

Greenhouse Gases Avoided By use of renewable energy

Carbon Dioxide **2,628,419lb**

Nitrogen Oxide **474lb**

Sulfur Dioxide **934lb**

Environmental Benefits

The greenhouse gases that **262** passenger cars emit over one year

The energy to power **6,696** computers for one year

The energy to operate a TV for **6,144,177** hours

Section C: Reports of any environmental disturbances or Safety/accident reports

Wildfires have been significantly affecting California over the past few years. Researchers at the California Air Resources Board estimate up to a 30% decrease in solar panel efficiency levels due to minuscule smoke particles that partially block critical sunlight needed to create solar energy. Although our models can take reduced sunlight levels into our models, we anticipated greater than expected reductions in actual measured solar generation to occur. This may result in lower generation than previous years.

No accidents have been reported to date.

Section D: Summary of additional services or actions needed

No actions are currently needed by the Owner. Therefore, we will assume this report is accepted in its final form if the Owner does not provide any comments before March 30, 2022.
